INDEPENDENT AUDITOR'S REPORT

Board of Directors and Stockholders
Pioneer Bancorp, Inc.
Roswell, New Mexico

Opinion

We have audited the consolidated financial statements of Pioneer Bancorp, Inc., which comprise the consolidated balance sheets as of December 31, 2025 and 2024, and the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Pioneer Bancorp, Inc. as of December 31, 2025 and 2024, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pioneer Bancorp, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pioneer Bancorp, Inc.'s ability to continue as a going concern for one year from the date the consolidated financial statements are available to be issued.

(continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pioneer Bancorp, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pioneer Bancorp, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Information Included in the Annual Report

Management is responsible for the other information included in the annual report. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

PIONEER BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization, Nature of Operations and Principles of Consolidation: Pioneer Bancorp, Inc. (the Bancorp) is a Nevada corporation chartered as a thrift holding company. The Bancorp holds all the issued and outstanding shares of Pioneer Bank (the Bank). The Bank is a federal savings bank operating in Southern New Mexico. Deposits in the Bank are insured by the Federal Deposit Insurance Corporation (the FDIC). The Bank has one subsidiary, Pioneer Mortgage Company (PMC), and PMC has one subsidiary, PPM, Inc., both of which are currently inactive. These consolidated financial statements include these entities, collectively referred to as “the Company”. Intercompany transactions and balances are eliminated in consolidation. The Company is not a public business entity (PBE) as defined by accounting standards.

Pioneer provides financial services through six (6) full customer service facilities, five (5) banking branches, and a network of twenty (20) ATMs. The Bank’s primary deposit products are checking, savings, and term certificate accounts, and the Bank’s primary lending products are commercial, consumer, and residential mortgage loans. Substantially all loans are secured by specific items of collateral including commercial and residential real estate, business assets, and consumer assets. Commercial loans are expected to be repaid from cash flow from operations of businesses. There are no significant concentrations of loans to any one industry or customer. However, the customers’ ability to repay their loans is dependent on the real estate and general economic conditions in the Bank’s lending area. The Company engages in mortgage banking activities and, as such, originates and services one-to-four family residential mortgage loans.

Subsequent Events: The Company has evaluated subsequent events for recognition and disclosure through March 10, 2026, which is the date the financial statements were available to be issued.

Use of Estimates: To prepare financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and the disclosures provided, and actual results could differ.

Cash Flows: Cash and cash equivalents include cash, deposits with other financial institutions with maturities under 90 days, and federal funds sold. Net cash flows are reported for customer loan and deposit transactions, interest-bearing deposits in other financial institutions, and federal funds purchased and repurchase agreements.

Restrictions on Cash: Cash on hand or on deposit with the Federal Reserve Bank was required to meet regulatory reserve and clearing requirements.

Interest-bearing Deposits in Other Financial Institutions: Interest-bearing deposits in other financial institutions consist of deposit accounts with no maturity date.

(Continued)

PIONEER BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Debt Securities: Debt securities are classified as held-to-maturity and carried at amortized cost when management has the positive intent and ability to hold them to maturity. Debt securities are classified as available-for-sale when they might be sold before maturity. Available-for-sale securities are carried at fair value, with unrealized holding gains and losses reported in other comprehensive income.

Interest income includes amortization of purchase premium or discount. Premiums and discounts on securities are amortized on the level-yield method without anticipating prepayments, except for mortgage-backed securities where prepayments are anticipated. Gains and losses on sales are recorded on the trade date and determined using the specific identification method.

A debt security is placed on nonaccrual status at the time any principal or interest payments become 90 days delinquent. Interest accrued but not received for a security placed on non-accrual is reversed against interest income.

Allowance for Credit Losses - Held-to Maturity Securities: Management measures expected credit losses on held-to-maturity debt securities on a collective basis by major security type. Accrued interest receivable on held-to-maturity debt securities totaled \$71.9 thousand at December 31, 2025 and is excluded from the estimate of credit losses.

The estimate of expected credit losses considers historical credit loss information that is adjusted for current conditions and reasonable and supportable forecasts.

Management classifies the held-to-maturity portfolio into the following major security types: Residential mortgage-backed securities and state and political subdivision securities.

All of the residential mortgage-backed securities held by the Company are issued by U.S. government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S. government, are highly rated by major rating agencies and have a long history of no credit losses.

Other securities are comprised of state and political subdivision securities located in New Mexico. At December 31, 2025, these securities were rated Aa2/Aa3 (defined as high quality and subject to very low credit risk).

(Continued)

PIONEER BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Allowance for Credit Losses – Available-For-Sale Securities: For available-for-sale debt securities in an unrealized loss position, the Company first assesses whether it intends to sell, or is more likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For debt securities available-for-sale that do not meet the aforementioned criteria, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, management considers the extent to which fair value is less than amortized cost, and changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive income.

Changes in the allowance for credit losses are recorded as credit loss expense (or reversal). Losses are charged against the allowance when management believes the uncollectibility of an available-for-sale security is confirmed or when either of the criteria regarding intent or requirement to sell is met.

Accrued interest receivable on available-for-sale debt securities totaled \$828.7 thousand at December 31, 2025 and is excluded from the estimate of credit losses.

Equity Securities: Equity securities are carried at fair value, with changes in fair value reported in net income. Equity securities without readily determinable fair values are carried at cost, minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment.

Loans: Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at amortized cost net of the allowance for credit losses. Amortized cost is the principal balance outstanding, net of deferred loan fees and costs. Accrued interest receivable totaled \$3.1 million at December 31, 2025 and was reported in Accrued interest receivable on the consolidated balance sheets and is excluded from the estimate of credit losses. Interest income is accrued on the unpaid principal balance.

Interest income on all classes of loans is discontinued at the time the loan is 90 days delinquent unless the loan is well-secured and in process of collection. Consumer loans are typically charged off no later than 120 days past due. Past due status is based on the contractual terms of the loan. Loans may be placed on nonaccrual sooner based on management judgement. In all cases, all classes of loans are placed on nonaccrual or charged-off at an earlier date if collection of principal or interest is considered doubtful. Nonaccrual loans and loans past due 90 days still on accrual include both smaller balance homogeneous loans that are evaluated on a collective basis and individually evaluated loans.

PIONEER BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

All interest accrued but not received for loans placed on nonaccrual is reversed against interest income for all classes of loans. Interest received on such loans is accounted for on the cash-basis or cost recovery method, until qualifying for return to accrual. Loans return to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for Credit Losses - Loans: The allowance for credit losses (ACL) is a valuation account that is deducted from the loans' amortized cost basis to present the net amount expected to be collected on the loans. Loans are charged off against the allowance when management believes the uncollectibility of a loan balance is confirmed. Expected recoveries do not exceed the aggregate of amounts previously charged-off and expected to be charged-off.

Management estimates the allowance balance using relevant available information, from internal and external sources, relating to past events, current conditions, and reasonable and supportable forecasts. Historical credit loss experience provides the basis for the estimation of expected credit losses. Adjustments to historical loss information are made for differences in current loan-specific risk characteristics such as differences in underwriting standards, portfolio mix, delinquency level, or term as well as for changes in environmental conditions, such as changes in unemployment rates, property values or other relevant factors. Economic data such as housing starts, median home prices, and Real Gross Domestic Product are also utilized.

The allowance for credit losses is measured on a collective (pool) basis when similar risk characteristics exist. The Company has identified the following portfolio segments and measures the allowance for credit losses using the following methods:

Loans secured by real estate, commercial and industrial, and consumer. Loans secured by real estate include the following classes: residential construction, nonresidential construction & land, home equity lines of credit, residential, second mortgages, multifamily, and commercial. These loan classes are further segmented by loan risk rating.

The Company considers loan performance and collateral values in assessing risk in the loan portfolio. The primary risk factors that have been identified for each loan segment are as follows:

- Loans secured by real estate are affected by the local real estate market, the local economy, and movement in interest rates. Appraisals are obtained to support the loan amount. For residential real estate, the Company evaluates the borrower's repayment ability through a review of credit scores and debt-to-income ratios. Commercial real estate loans are dependent on the industries tied to these loans. An evaluation of the entity's cash flows is performed to evaluate the borrower's ability to repay the loan.
- Commercial and industrial loans are dependent on the strength of the industries of the related borrowers and the success of their businesses. Commercial loans are advanced for equipment purchases or to provide working capital or meet other financing needs of the business. These loans may be secured by accounts receivable, inventory, equipment or other business assets. Financial information is obtained from the borrower to evaluate the debt service coverage and ability to repay the loans.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- Consumer loans are dependent on the local economy, and are generally secured by consumer assets, but may be unsecured. The Company evaluates the borrower's repayment ability through a review of credit scores and an evaluation of debt-to-income ratios.

The remaining life method is utilized for all loan categories in calculating the expected loss rate. The remaining life method estimates expected credit losses by calculating an average annual loss rate and multiplying it by future outstanding balances each period based on contractual maturities and estimated prepayments. The annual loss rates are comprised of the Company's or Peer Group's historical loss experience from March 31, 2004 to September 30, 2025. In 2024 and 2025, adequate loss data was available based on the Company's loss rates, therefore no Peer Bank Loss Data was utilized.

Qualitative Adjustments consist of the following risk factors: Changes in international, national, regional, and local conditions; changes in the value of underlying collateral for collateral dependent loans; the existence and effect of any concentrations of credit and changes in the levels of such concentrations; changes in lending policies and procedures, including changes in underwriting standards and collections, charge offs, and recovery practices; the effect of the level of watch, special mention, and substandard loans; changes in the quality of the organizations' loan review system; changes in the nature and volume of the portfolio and terms of loans; changes in the experience, depth, and ability of lending management; changes in the volume and severity of past due loans and other similar conditions; the effect of other external factors (competition, legal and regulatory requirements, etc.) on the level of estimated credit losses; the effect of critical loan file exception levels; and an economic forecast based on the growth of real (inflation-adjusted) gross domestic product.

The risk factor with the most weight is the changes in international, national, regional, and local conditions. This risk factor will adapt to economic trends. Most notably, the following economic indicator will be utilized to adjust this risk factor: New Privately-Owned Housing Units under Construction: Total Units. A secondary economic indicator that will be considered in adjusting the changes in the underlying collateral for collateral dependent loans is Median Home Prices of Houses Sold in the United States. A high volume of homes under construction indicates the construction industry will be active, which forecasts more jobs and an increase in GDP. In any scenario, a decline in housing construction or housing prices has a negative impact on the economy.

Management's current estimate of expected credit losses includes a factor based on reasonable and supportable forecasts, which is based on the projected change to the Real Gross Domestic Product in one year. The source of this forecast is the Congressional Budget Office. The forecast is applied to the qualitative adjustments and the adjustment is the same for all loan segments. Depending on the amount of the projected one year change in the real gross domestic product, the qualitative factor adjustment will range between -0.20 basis points to +0.20 basis points.

(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The level and significance of the changes in these three economic indicators will be evaluated to determine the adjustment to the Qualitative Factors in determining the ACL.

Loans that do not share risk characteristics are evaluated on an individual basis. Loans evaluated individually are not included in the collective evaluation. When management determines that foreclosure is probable or when the borrower is experiencing financial difficulty at the reporting date and repayment is expected to be provided substantially through the operation or sale of the collateral, expected credit losses are based on the fair value of the collateral and the reporting date, adjusted for selling costs as appropriate.

Expected credit losses are estimated over the contractual term of the loans, adjusted for expected prepayments when appropriate. The contractual term excludes expected extensions, renewals, and modifications unless either of the following applies: management has a reasonable expectation at the reporting date that a modification under financial difficulty will be executed with an individual borrower or the extension or renewal options are included in the original or modified contract at the reporting date and are not unconditionally cancellable by the Company.

Allowance for Credit Losses on Off-Balance Sheet Credit Exposures: The Company estimates expected credit losses over the contractual period in which the Company is exposed to credit risk via a contractual obligation to extend credit, unless that obligation is unconditionally cancellable by the Company. The allowance for credit losses on off-balance sheet credit exposures is adjusted through credit loss expense. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded over its estimated life.

The loan categories and reserve loss rates used for loans is also used for off-balance sheet credit exposures.

Concentration of Credit Risk: Most of the Company's business activity is with customers located within the State of New Mexico. Therefore, the Company's exposure to credit risk is significantly affected by changes in the economy in the State of New Mexico. The Company also purchases commercial loan participations with other banks outside the State of New Mexico, including Texas and Utah.

Loan Commitments and Related Financial Instruments: Financial instruments include off-balance-sheet credit instruments, such as commitments to make loans and commercial letters of credit, issued to meet customer financing needs. The face amount for these items represents the exposure to loss, before considering customer collateral or ability to repay. Such financial instruments are recorded when they are funded.

Federal Home Loan Bank (FHLB) Stock: The Bank is a member of the FHLB system. Members are required to own a certain amount of stock based on the level of borrowings and other factors, and may invest in additional amounts. FHLB stock is carried at cost, classified as a restricted security, and periodically evaluated for impairment based on the ultimate recovery of par value. Both cash and stock dividends are reported as income.

PIONEER BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2024 and 2023
(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Premises and Equipment: Land is carried at cost. Premises and equipment are stated at cost less accumulated depreciation. Buildings and related components are depreciated using the straight-line method with useful lives ranging from 5 to 39 years. Furniture, fixtures and equipment are depreciated using the straight-line method with useful lives ranging from 3 to 12 years. Leasehold improvements are amortized over the life of the asset or the term of the lease, whichever is shorter. Repairs and maintenance not extending the useful life of the asset are expensed.

Long-Term Assets: Premises and equipment, core deposit and other intangible assets, and other long-term assets are reviewed for impairment when events indicate their carrying amounts may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value.

Transfers of Financial Assets: Transfers of financial assets are accounted for as sales when control over the assets has been relinquished. Control over transferred assets is deemed to be surrendered when the assets have been isolated from the Company, the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Other Real Estate Owned: Foreclosed assets are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. Physical possession of residential real property collateralizing a consumer mortgage loan occurs when legal title is obtained upon completion of foreclosure or when the borrower conveys all interest in the property to satisfy the loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. These assets are subsequently accounted for at the lower of cost or fair value less estimated costs to sell. If fair value declines subsequent to foreclosure, a write-down is recorded through expense. Operating costs after acquisition are expensed. The Company transferred one loan in the amount of \$161 thousand to other real estate owned in the year ended December 31, 2025.

Bank-Owned Life Insurance: The Bank has purchased life insurance policies on certain key executives. Bank-owned life insurance is recorded at the amount that can be realized under the insurance contract at the balance sheet date, which is the cash surrender value adjusted for other charges or other amounts due that are probable at settlement.

Retirement Plans: Defined benefit pension plan expense is the net of service and interest cost and amortization of gains and losses not immediately recognized.

Employee Stock Ownership Plan (ESOP): The Company maintains a non-contributory, non-leveraged ESOP. Contribution expense is based on the market price of shares as they are contributed to participant accounts. Distributions on allocated shares reduce retained earnings.

Stock-Based Compensation: Compensation cost is recognized for stock options issued to employees based on the fair value of these awards at the date of grant. A Black-Scholes model is utilized to estimate the fair value of stock options. Compensation cost is recognized over the required service period, generally defined as the vesting period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loss Contingencies: Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there now are such matters that will have a material effect on the financial statements.

Income Taxes: The Bancorp files a consolidated U.S. federal income tax return with its subsidiary, Pioneer Bank, and its subsidiary, Pioneer Mortgage Company. The Bancorp also files a consolidated state income tax return in New Mexico. The Company is taxed under Subchapter S of the Internal Revenue Code, whereby the Company's taxable income is reported on the individual stockholders' tax returns.

A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded.

The Company recognizes interest and/or penalties related to income tax matters in income tax expense. There were no interest or penalties recorded in the income statement for the years ended December 31, 2025 and 2024. The Company is no longer subject to examination by taxing authorities for years before 2022.

Earnings Per Share: Earnings per share of capital stock has been computed on the basis of the weighted-average number of shares of capital stock outstanding. ESOP shares are considered outstanding for this calculation unless unearned. Diluted earnings per common share include the dilutive effect of additional potential common shares issuable under stock options which was 2,372 shares at December 31, 2025 and 911 shares at December 31, 2024. There were no antidilutive potential common shares.

Dividend Restriction: Banking regulations require maintaining certain capital levels and may limit the dividends paid by the Bank to the holding company which will limit the ability of the holding company to pay distributions to stockholders.

Comprehensive Income: Comprehensive income consists of net income and other comprehensive income. Other comprehensive income includes unrealized gains and losses on securities available-for-sale and changes in the status of the defined benefit plan which are also recognized as separate components of equity.

Fair Value of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in Note J. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

Total held-to-maturity	<u>\$ 9,781</u>	<u>\$ 51</u>	<u>\$ (86)</u>	<u>\$ 9,746</u>

All the securities held in the Company's securities portfolio, with the exception of State and political subdivision securities, are issued by U.S government entities and agencies. These securities are either explicitly or implicitly guaranteed by the U.S government, are highly rated by major rating agencies and have a long history of no credit loss. The Company monitors the State and political subdivision securities by reviewing the security ratings on a monthly basis. At December 31, 2025, the Company determined that no allowance for credit losses was required for the securities portfolio.

Beyond ten years	<u>270,966</u>	<u>256,506</u>	<u>524</u>	<u>530</u>
	<u>\$ 355,570</u>	<u>\$ 337,925</u>	<u>\$ 9,781</u>	<u>\$ 9,746</u>

Securities pledged to secure public deposits and repurchase agreements, and borrowings at December 31, 2025 and 2024 were approximately \$299.3 million and \$286.2 million at fair value.

At year-end 2025 and 2024, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of shareholders' equity.

(Continued)

PIONEER BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE C - SECURITIES (Continued)

As of December 31, 2025, the Company's security portfolio consisting of 183 securities, 98 of which were in an unrealized loss position. The majority of unrealized losses are related to the Company's mortgage-back and collateralized mortgage obligations, as discussed below:

Mortgage-Backed Securities and Collateralized Mortgage Obligations

At December 31, 2025, all of the mortgage-backed securities and collateralized mortgage obligations held by the Company were issued by U.S. government-sponsored entities and agencies. Because the decline in fair value is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Company does not have the intent to sell these mortgage-backed securities and collateralized mortgage obligations and it is likely that it will not be required to sell the securities before their anticipated recovery, the Company did not record expected credit loss during the years ended December 31, 2025 or 2024.

The state and political subdivision bonds held by the Company are of high investment grade and are monitored on a monthly basis. The Company did not make any allowance for credit losses for the securities portfolio at December 31, 2025.

Credit Quality Indicators

The Company monitors the credit quality of debt securities held-to-maturity through the use of credit rating. The Company monitors the credit rating on a monthly basis and at December 31, 2025. The following table summarizes the amortized cost of debt securities held-to-maturity at December 31, 2025, aggregated by credit quality indicator.

	Held-to-Maturity		
	Mortgage- backed Residential	State and Political Subdivision	Total
<u>December 31, 2025</u>			
AAA/AA/A	\$ 2,681	\$ 4,165	\$ 6,846
Not Rated	-	2,935	2,935
	<u>\$ 2,681</u>	<u>\$ 7,100</u>	<u>\$ 9,781</u>

There were no debt securities held-to-maturity that are past due or on non-accrual at December 31, 2025.

NOTE D - LOANS AND ALLOWANCE FOR CREDIT LOSSES *(Continued)*

Management's current estimate of expected credit losses includes a factor based on reasonable and supportable forecasts about the future. This forecast is based on the projected change to the real gross domestic product in one year. This forecast is applied to the qualitative adjustments and the adjustment is the same for all loan segments. Depending on the amount of the projected one year change in the real gross domestic product, the qualitative factor adjustment will range between -0.20 basis points to +0.20 basis points.

The level and significance of the changes in economic indicators will be evaluated to determine the adjustment to the Qualitative Factors in determining the ACL.

The following table presents the amortized cost basis of loans on nonaccrual status and loans past due over 89 days still accruing as of December 31, 2025:

	Nonaccrual With No Allowance <u>For Credit Loss</u>	<u>Nonaccrual</u>	Loans Past Due Over 89 days <u>Still Accruing</u>
Loans secured by real estate:			
Residential construction	\$ -	\$ -	\$ -

NOTE D - LOANS AND ALLOWANCE FOR CREDIT LOSSES *(Continued)*

Occasionally, the Company modifies loans to borrowers in financial distress by providing principal forgiveness, term extension, an other-than-insignificant payment delay or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses.

In some cases, the Company provides multiple types of concessions on one loan. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession, such as principal forgiveness, may be granted.

The following tables present the amortized cost basis of loans that were experiencing financial difficulty and modified during the years ended December 31, 2025 and 2024. The Company has not committed to loan any additional amounts to these borrowers. All loans are current and there were no defaults within twelve months of the modifications.

<u>2025</u>	<u>Principal Forgiveness</u>	<u>Payment Delay</u>	<u>Term Extension</u>	<u>Interest Rate Deduction</u>
Loans secured by real estate:				
Residential construction	\$ -	\$ -	\$ -	\$ -
Nonresidential construction & land	-	-	-	-
Residential	-	-	-	-
Multifamily	-	-	-	-
Commercial	-	4,615	-	-
Commercial & industrial	-	-	2,724	-
Consumer	-	-	-	-
Total	<u>\$ -</u>	<u>\$ 4,615</u>	<u>\$ 2,724</u>	<u>\$ -</u>
<u>2024</u>	<u>Principal Forgiveness</u>	<u>Payment Delay</u>	<u>Term Extension</u>	<u>Interest Rate Deduction</u>
Loans secured by real estate:				
Residential construction	\$ -	\$ -	\$ -	\$ -
Nonresidential construction & land	-	-	-	-
Residential	-	-	-	-
Multifamily	-	-	-	-
Commercial	-	-	1,700	-
Commercial & industrial	-	12,200	-	-
Consumer	-	-	-	-
Total	<u>\$ -</u>	<u>\$ 12,200</u>	<u>\$ 1,700</u>	<u>\$ -</u>

Upon the Company's determination that a modified loan (or portion of a loan) has subsequently been deemed uncollectible, the loan (or a portion of the loan) is written off. Therefore, the amortized cost basis of the loan is reduced by the uncollectible amount and the allowance for credit losses is adjusted by the same amount.

(In thousands, except share amounts)

NOTE D - LOANS AND ALLOWANCE FOR CREDIT LOSSES *(Continued)*

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis includes non-homogeneous loans, such as commercial and commercial real estate loans. This analysis is performed on a quarterly basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

(In thousands, except share amounts)

NOTE D - LOANS AND ALLOWANCE FOR CREDIT LOSSES (Continued)

Loans not meeting the criteria above that are analyzed individually as part of the above-described process are considered to be pass rated loans. Loans listed as not rated are included in groups of homogeneous loans. Management evaluates the risk category of these unrated loans when a loan becomes delinquent or a borrower requests a concession. Nonaccrual loans guaranteed by the Government are not rated. As of year-end 2025 and 2024, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

<u>2025</u>	<u>Not Rated</u>	<u>Pass</u>	<u>Special Mention</u>	<u>Substandard</u>	<u>Doubtful</u>	<u>Total</u>
Loans secured by real estate:

NOTE F - DEPOSITS

A comparative summary of deposits by remaining term to maturity follows:

	<u>2025</u>	<u>2024</u>
No contractual maturities	\$ 783,908	\$ 709,109
2025	-	40,295
2026	46,064	7,161
2027	4,993	2,331
2028	2,070	1,796
2029	1,336	1,358
2030	<u>3,350</u>	<u>-</u>
	<u>\$ 841,721</u>	<u>\$ 762,050</u>

At December 31, 2025 and 2024, approximately \$166.5 million and \$162.7 million of residential mortgage-backed and U.S. Government-sponsored agency securities were pledged to secure public unit deposits.

Time deposits of \$250,000 or more (the federally insured amount) were \$16.5 million and \$11.6 million at year-end 2025 and 2024.

Deposits from executive officers, directors, and their affiliates at year-end 2025 and 2024 were \$26.3 million and \$20.5 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE G - FEDERAL HOME LOAN BANK ADVANCES (FHLB) AND OTHER BORROWINGS

At year-end 2025, the Company had one advance from the FHLB in the amount of \$30.0 million that matures January 15, 2026 at an interest rate of 4.314%. The Company also has a letter of credit from FHLB in the amount of \$10.0 million that matures December 4, 2026.

At year-end 2024, the Company had no advances from the FHLB.

Each FHLB advance is payable at its maturity date or on payment of a prepayment penalty for fixed rate advances. The advances were collateralized by \$175.2 million and \$219.9 million of eligible loans under a blanket lien arrangement at year-end 2025 and 2024. Based on this collateral, the Company's holdings of FHLB stock and securities held in safekeeping, the Company was eligible to borrow an additional \$136.2 million at year-end 2025.

Other borrowings consist of customer repurchase sweep accounts with overnight maturities. Balances were \$123.4 million and \$114.3 million at year-end 2025 and 2024.

The fair value of securities pledged to secure repurchase agreements may decline. The Company manages this risk by pledging securities, typically valued at between 110% to 120% above the gross outstanding balance of repurchase agreements. Securities pledged to secure repurchase agreements were \$132.8 million and \$123.5 million at year-end 2025 and 2024 at fair value.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE H - COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, the Company may become party to certain claims and legal actions. In the opinion of management, after consultation with legal counsel, the ultimate disposition of these matters is not expected to have a material effect on the consolidated balance sheets of the Company.

Also, the Company has various outstanding commitments and contingent assets and liabilities that are not reflected in the accompanying consolidated financial statements. Those financial instruments with off-balance-sheet risk are used to meet the financial needs of the Company's customers and include commitments to extend credit and standby letters of credit. They involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated statements of financial condition. The contract or notional amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual notional amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. The approximate contract or notional amounts of financial instruments whose contract amounts represent credit risk are:

	<u>2025</u>	<u>2024</u>
Undisbursed lines of credit	\$ 134,893	\$ 153,626
Commitments to originate loans	9,474,391	29,514
Recourse on loans sold	200	200
Standby letters of credit	619	770

(In thousands, except share amounts)

NOTE I - REGULATORY MATTERS

The Bank is subject to regulatory capital requirements administered by federal banking agencies. Capital adequacy guidelines and prompt corrective action regulations involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action. The net unrealized gain or loss on available-for-sale securities is not included in computing regulatory capital. Management believes as of December 31, 2025 and 2024, the Bank met all capital adequacy requirements to which it is subject.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required. At year-end 2025 and 2024, the most recent regulatory notifications categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the Bank's category.

The following table provides the capital ratios of the Bank, along with the applicable regulatory capital requirements as of December 31, 2025 and 2024 which were calculated in accordance with the requirements of Basel III, which included a "capital conservation buffer" of 2.5% above new regulatory minimum capital ratios, resulting in the following minimum ratios: (i) a common equity Tier 1 capital ratio of 7.0%; (ii) a Tier 1 risk-based capital ratio of 8.5%; and (iii) a total capital ratio of 10.5%. The capital conservation buffer for 2025 and 2024 is 2.50%. An institution is subject to limitations on paying dividends, engaging in share repurchases, and paying discretionary bonuses if its capital level falls below the buffer amount. These limitations will establish a maximum percentage of eligible retained income that can be utilized for such activities. At year-end 2025 and 2024, the Bank's actual capital levels and minimum required levels, including the capital conservation buffer, were as follows:

Tier 1 capital (to risk-weighted assets)	118,659	16.5%	60,976	8.5%	57,389	8.0%
Common equity Tier 1 capital (to risk-weighted assets)	118,659	16.5%	50,216	7.0%	46,629	6.5%
Tier 1 capital (to average assets)	118,659	11.7%	40,516	4.0%	50,645	5.0%

The Company's principal source of funds for distribution payments is dividends received from the Bank. Banking regulations limit the amount of dividends that may be paid without prior approval of regulatory agencies. Under these regulations, the amount of dividends that may be paid is limited to the retained net profits of the preceding two years, subject to the capital requirements described above. During 2026, the Bank could, subject to no objection from regulators, declare dividends of approximately \$20.9 million plus any 2026 net profits retained to the date of the dividend declaration.

NOTE J - FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Securities available-for-sale: The fair values of securities available-for-sale are determined by quoted market prices, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on market prices of similar securities (Level 2).

Collateral dependent loans: The fair value of collateral dependent loans are generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge of the client and client's business, resulting in a Level 3 fair value classification. Total adjustments were \$1.1 million in 2025 and \$5.7 million in 2024. The fair value of the collateral dependent loans in the commercial real estate and commercial & industrial loan categories was \$3.5 million and \$0 at year-end 2025 and \$1.7 million and \$8.2 million at year-end 2024. These adjustments were included upon the partial charge-off of the collateral dependent loans. Commercial real estate collateral dependent loans with a fair value of \$1.8 million were valued using a sales comparison approach which had adjustments for the difference between comparable sales of -10% to -35%. Commercial real estate collateral dependent loans with a fair value of \$1.7 million were valued using an income approach based on the net operating expectations of the subject as well as a capitalization rate of 8.50%.

(In thousands, except share amounts)

NOTE K - RETIREMENT PLANS

The Bank has both a qualified 401(k) retirement savings plan and an Employee Stock Ownership Plan (ESOP). In 2013 stockholders approved the Pioneer Bank Employee Stock Ownership Plan. In 2014 Pioneer transferred approximately \$2.0 million of the matching contribution account held in the 401(k) Plan to the ESOP in order to establish the initial ESOP fund. The Bank then applied the amount transferred to the purchase of 31,581 shares of Pioneer Bancorp, Inc. common stock from Pioneer Bancorp, Inc. treasury shares at \$62 per share, the appraised value of the stock on August 15, 2014, the date of the transfer.

Participant stock will be repurchased by the Company at the end of employment. All shares held by the ESOP at December 31, 2025 were allocated to participants. The fair value of allocated shares subject to repurchase obligation at year-end 2025 was \$10.6 million.

Contributions to the ESOP are optional at the discretion of the Board of Directors. The level of matching contributions as a percentage of eligible employee compensation and plan expenses were as follows for 2025 and 2024:

<u>Year</u>	<u>Match</u>	<u>Compensation</u>	<u>Expense</u>
2024	100%	5%	\$ 355
2025	100%	5%	359

The Company also has an unfunded noncontributory defined benefit plan that covers certain senior executive officers. The plan provides defined benefits based on years of service and final average salary. The Company uses December 31 as the measurement date for its plan.

Information about changes in obligations of the defined benefit plan follows:

	<u>2025</u>	<u>2024</u>
Benefit obligation at beginning of year	\$ 5,534	\$ 5,884
Service cost	69	71
Interest cost	289	270
Actuarial (gain) loss	149	(331)
Benefits paid	<u>(360)</u>	<u>(360)</u>
Benefit obligation at end of year	<u>\$ 5,681</u>	<u>\$ 5,534</u>

Amounts recognized in accumulated other comprehensive income consist of:

	<u>2025</u>	<u>2024</u>
Net loss/(gain)	\$ (339)	\$ (610)
Prior service cost	<u>(64)</u>	<u>(79)</u>
Total	<u>\$ (403)</u>	<u>\$ (689)</u>

(Continued)

PIONEER BANCORP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2025 and 2024
(In thousands, except share amounts)

NOTE K - RETIREMENT PLANS *(Continued)*

The net periodic benefit cost was \$220 thousand and \$270 thousand for the years ended December 31, 2025 and 2024.

The estimated net loss (gain) and prior service cost (credit) for the benefit plan that will be amortized from accumulated other comprehensive income into net periodic benefit costs during the year ending December 31, 2026 are (\$85) thousand and (\$16) thousand.

Estimated Future Payments

The following benefit payments, which reflect expected future service, are expected:

2026	\$	359
2027		370
2028		435
2029		431
2030		427
Years 2031-2035		2,327

The weighted-average discount rate used to determine benefit obligations and periodic benefit cost was 5.19% and 5.40% and 5.40% and 4.74% at year-end 2025 and 2024.

In 2016, the Company created an unfunded noncontributory defined contribution plan that covers certain senior executive officers whose benefits were frozen in the defined benefit plan or are new participants. The plan provides an annual accrual as a percentage of base salary subject to certain performance objectives. Total expense for the plan year ended December 31, 2025, and 2024 was \$523 and \$399 thousand.

NOTE L - STOCK-BASED COMPENSATION

The Company has a stock option plan as described below. Total compensation cost that has been charged against income for that plan was \$295 thousand for 2025 and 2024.

The Company's 2023 Equity Incentive Plan, which is stock-holder approved, permits the grant of stock options to its officers, employees, and directors for up to 80 thousand shares of common stock. The Company believes that such awards better align the interests of its employees with those of its stockholders. Option awards are granted with an exercise price equal to the estimated market price of the Company's common stock at the date of grant; those option awards have a vesting period of three to five years and have 10-year contractual terms. The Company's policy is to shares held as treasury shares to satisfy expected stock option exercises.

Currently the Company has a sufficient number of treasury shares to satisfy expected stock option exercises.

The fair value of each option award is estimated on the date of grant using a closed form option valuation (Black-Scholes) model. Because the Company's stock is not actively traded, expected volatilities are based on a group of publically traded peers. The Company uses management's estimate of option exercise, post-vesting termination behavior, and the expected term of options granted, which represents the period of time that options granted are expected to be outstanding, which takes into account that the options are not transferable. The risk-free rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of the grant.

Options granted in 2025 and 2024 were zero.

The fair value of options granted was determined using the following weighted-average assumptions as of grant date.

	<u>2023</u>
Risk-free interest rate	4.88%
Expected term	7 years
Expected stock price volatility	26.88%
Dividend yield	0.00%

NOTE L - STOCK-BASED COMPENSATION (Continued)

A summary of the activity in the equity incentive plan for 2025 follows:

	<u>Shares</u>	<u>Weighted- Average Exercise Price</u>	<u>Weighted- Average Remaining Contractual Term</u>
Outstanding at beginning of year	22,836	\$ 117	
Granted	-	-	
Exercised	2,982	117	
Forfeited or expired	<u>-</u>	<u>-</u>	
Outstanding at end of year	<u>19,854</u>	<u>\$ 117</u>	<u>8.8</u>
Vested or expected to vest	6,698	\$ 117	8.8
Exercisable at end of year	<u>3,716</u>	<u>\$ 117</u>	<u>8.8</u>

Information related to the 2023 employee incentive plan for the year follows:

	<u>2025</u>	<u>2024</u>
Intrinsic value of options exercised	\$ 63	\$ 31
Cash received from option exercises	350	312
Intrinsic value of options outstanding	420	269
Weighted average fair value of options granted	-	-

As of December 31, 2025, there is \$569 thousand in total unrecognized compensation cost related to nonvested stock options granted under the 2023 Equity Incentive Plan. The cost is expected to be recognized over a weighted-average period of 2.39 years.
